

Watching my daughter  
in the school play.

I could have missed it.

Darryl, aged 38, workshop supervisor

## Don't lose sight of the ones you love...

Every day 100 people start to lose their sight. Book an eye test today and, like Michelle, early detection could save your sight.

If you use a VDU screen or wear safety spectacles for work, you could be eligible for a free eye test to help keep your eyes healthy.

To find out more about claiming an  
Eyecare Voucher, please contact:
